

M-315 Reducer / Cleaner Non Flammable

ACCESSORIES

DESCRIPTION:

Reducer/Thinner used to restore normal consistency to Parabond M-363 adhesive should it thicken due to prolonged exposure to air. M-315 can also be used to clean dried adhesive from floor covering and/or tools.

DIRECTIONS:

1. Add M-315 Reducer/Cleaner to Parabond M-363 adhesive to restore normal consistency should they thicken due to prolonged exposure to air.
2. Do not add the M-315 Reducer/Cleaner if product thickened due to low temperatures 20°F or below.
3. If this occurs allow the adhesive to acclimate to room temperature, 60°F or higher until normal consistency is restored.
4. Application of direct heat through flame heat gun, heater etc. is **Not Recommended**.
5. Use M-315 to clean brushes, roller, and tools used with Parabond M-363 adhesive.
6. It is the sole responsibility of the installer to determine the suitability and compatibility of the adhesive for the end user's intended use.

PHYSICAL PROPERTIES:

Weight/gallon (lbs) 10.0
